

RALLION ANTONIO N. CIPRIANO

FULL STACK DEVELOPER

SUMMARY

- 4+ years of experience as a Backend Developer specializing in Java and Spring Framework.
- Developed scalable, reliable enterprise and SaaS applications.
- Strong expertise in Spring Boot, microservices architecture, and REST/GraphQL API development.
- Experienced with Oracle and SQL-based database design, optimization, and integration.
- Proficient in building clean, maintainable, and high-performance backend solutions.
- Hands-on experience with enterprise application deployment and system integration.
- Collaborative Agile team member with experience delivering high-quality software in fast-paced environments.
- Strong understanding of software design principles, code quality, and backend best practices.

EDUCATIONAL BACKGROUND

Bachelor of Secondary Education – Major in Mathematics

UNIVERSIDAD DE MANILA

2014-2019

PROFESSIONAL EXPERIENCE

■ CxFabric

JUL 2024 - PRESENT

Full Stack Developer

- Developed AI-powered workflow automation solutions using Java, Spring Boot, and LLMs to streamline CSR operations and business processes.
- Built and integrated an MCP Server to enable intelligent AI interactions with enterprise systems and external APIs.
- Designed scalable backend services, microservices, and REST APIs while collaborating in an Agile development environment.

■ Accenture

SEPT 2024 - DEC 2025

Custom App Senior Analyst

- Developed and maintained enterprise-level applications using Java and Spring Framework, deployed on JBoss, with Oracle Database as the primary data store.
- Collaborated with cross-functional Agile teams to enhance system performance, conduct code reviews, and ensure compliance with enterprise development standards.

■ CxFabric

DEC 2023 - AUG 2024

Backend Developer

- Designed and maintained backend services using Java, Spring Boot, Node.js, and JavaScript for a SaaS platform supporting call center operations.
- Built and integrated REST and GraphQL APIs, webhooks, and AWS services to automate workflows and improve system reliability.

■ Entrego

DEC 2022 - DEC 2023

Software Engineer

- Developed backend systems for logistics and delivery platforms using Java, Spring Boot, and PostgreSQL.
- Focused on REST API design, performance optimization, and collaboration with frontend and DevOps teams.

■ Pacific Sea BPO Inc.

FEB 2020 - MAY 2022

Risk Management Assistant

- Analyzed deposit and withdrawal transactions to detect and prevent fraudulent activities.
- Investigated anomalies, implemented risk controls, and ensured regulatory compliance.
